

How to use:

First I have a list of all subjects, after that I have a list of subjects and relevant stuff (some stuff may be repeated). In that second list, main subject is the title and underneath it is the name of all slides/powerpoints on that subject. I put everything in rough alphabetical order. You can download file, copy and paste things to make it easier to read. Sorry about the mess, I have no programming skills here. You can also use search command if it helps. Also, I am not good at this so if you notice something wrong please let me know. Additionally, if you want to read this better you can download or copy this file delete and split up stuff yourself (sorry about that I have to fit the document tighter somewhat for myself).

Subjects Glossary/Table of Contents:

- Abuse
- AI, Algorithms, and Discrimination:
- Allyship
- Anxiety
- Autism (directly)
- Behaviorism/Teaching/School (including good accommodations)
- Biases in Stem
- Canceling, classics, and biases
- Dressing/Looks/Fashion/Hygiene
- Dyslexia, communication, & spelling/grammar
- Eating
- Environmentalism
- Gender (even if very indirect)
- Housing
- Jewish
- Me
- Money
- Meds/Supplements
- Mental age, age, functional labels
- Migraines
- Moderation & Discrimination
- Other ND (Synesthesia, Dyspraxia, PDA)
- Organization/Travel
- Outdoors
- Physical health/Hydrate
- Physical spaces more accessible
- Tech and Disability
- Therapies
- Work, Disability, & Values
